

STRETCH GUARD™

Silicone FacePillow Cover

Disinfecting a facecradle cushion can be a big challenge in the current Covid climate. Earthlite makes it easy: introducing the STRETCH GUARD™ Silicone FacePillow Cover, the industry's first disinfectable, reusable facecradle cushion cover. The molded, seamless design and chemical resistant silicone material makes disinfecting easy. The cover is stretchy, form-fitting, and fits most industry standard crescent cushions. Washable (dishwasher safe), reusable, durable, and safe. Made By Earthlite, the trusted leader in massage and wellness supplies since 1987, headquartered in Vista, CA.

- **PROTECT YOUR CLIENTS/GUESTS**
Provides a waterproof, germproof barrier between the facecradle cushion and your client.
- **DISINFECTABLE, CHEMICAL RESISTANT**
Made with 100% silicone rubber that is chemical resistant and easily disinfectable.
- **SEAMLESS DESIGN**
Easy to wipe down; germs have nowhere to hide!
- **WASHABLE, REUSABLE, SAFE**
Dishwasher safe. Reusable. The Stretch Guard cover is arguably the most cost-effective way to protect your guests and your cushions with intense disinfection.
- **STRETCHY, FITS MOST CRESCENT CUSHIONS**
Stretchy, form fitting silicone rubber creates a disinfectable, clean and safe barrier between the guest and the upholstery.

Form Fitting

Stretchy, form fitting silicone rubber fits most crescent cushions

Seamless design

Molded, seamless design and chemical resistant silicone material makes disinfecting easy.
